

OE11-135

LOW COST UNDERWATER HALOGEN LAMP

300W Halogen Floodlight

80° Beam Coverage

High Colour Rendition Index Value

The OE11-135 is a compact and rugged underwater halogen lamp, designed specifically for diver and ROV deployment applications.

The lamp is fitted with a 115V, 300 Watt high efficiency halogen bulb and produces a broad, even beam of white light which is ideal for the demanding requirements of underwater video tasks where accurate colour replication is essential.

The OE11-135 halogen lamp has a simple and modular design allowing the operator to easily carry out first line maintenance in the field.

OE11-135

TECHNICAL SPECIFICATIONS

Electrical	
Lighting	Plug -in high efficiency quartz halogen bulb, fully variable output
Illuminance @ 1 metre	Better than 250 lux
Colour Temperature	3200K
Power	115V / 300 Watt
Reflector	Integral internal body reflector
Beam Angle	>80° (half power points)
Mechanical	
Dimensions	Diameter: 48mm (main body), 70mm (front end) Length: 104mm (excl. connector)
Weight	In air: 0.38 Kg In water: 0.21 Kg
Housing Material	6082-T6 Marine Grade Aluminium
External Finish	Hard Anodised, Clear Finish
Connector	E059F2FM or equivalent (other connector options are available)
Environmental	
Operating Depth	3000 msw
Temperature	Operating: 0 to 40°C Storage: -20 to 60°C
Shock	30G peak acceleration, 25ms half sine duration, on all three axes
Vibration	10G, from 20 to 150HZ on all three axes
